## Microchip Registration

At this time OPA does not microchip our animals. However, many of them come from the shelter or previous homes with one. If your new pet does not have a microchip, we highly recommend you get one! Animals with microchips from the shelter are usually with one of the two companies below. There are also many other microchip registration companies that can be used. Some have fees and others are free. Pick the one that works best for you BUT REGISTER SOMEWHERE! Thank you for adopting!

### **MONTGOMERY COUNTY ANIMAL SHELTER MICROCHIP COMPANIES:**

#### Found Animals Registry

1. Go to [www.foundanimals.org](http://www.foundanimals.org)
2. Provide as much contact information as possible.
3. Add a photo and notes to your pet's profile.
4. \*You can register your other pets for free.

#### Save This Life

1. Go to [www.savethislife.com](http://www.savethislife.com)
2. Click on "Register Save This Life Microchip" in the upper right corner.
3. Provide as much contact information as possible.
4. \*You can register your other pets at this site as well.

**REGISTERING MICROCHIPS** – We recommend using [www.foundanimals.org](http://www.foundanimals.org) to register your pet's chip. It is free to register, free to update, is registered with the AAHA universal lookup, and is a non-profit organization.

**SELECTING A MICROCHIP** – We recommend avoiding microchips using numbers beginning with 900 or 990. These chip's numbers are not regulated so different manufacturers can use the same numbers. This can make it difficult to access the correct information for your pet and would take longer to track down and contact you.

**WHERE TO GET A MICROCHIP** – Here are a few ways you can get your pet microchipped in the area.

- 1) **Bear Branch Animal Hospital**, 281-292-5000 – Tell them your pet was adopted from us and you would like to get your pet microchipped. Provide the OPA ID number (begins with a "D") - \$35.00
- 2) **Angel's Pet Hospital**, 281-290-0360 – Tell them your pet was adopted from us and you would like to get your pet microchipped. Provide the OPA ID number (begins with a "D") - \$23.89.
- 2) **Tractor Supply Company** – has a Pet Vet Clinic. For locations, dates and prices go to: [https://www.tractorsupply.com/landing-pages\\_pet-vet-clinic](https://www.tractorsupply.com/landing-pages_pet-vet-clinic)
